Our reason for being

A mission...

Our mission at PETUXE is to care for and pamper the world we live in. From the products we make to the people and pets we live with who make us happier every day.

Doing things with love

Love and care in everything we do helps us achieve the best results.

Environmentally conscious

At PETUXE, we are committed to sustainable development, based on the utmost respect for nature and an unsurpassed love for animals, our pets, our friends.

Responsible packaging

We are very proud to use recyclable packaging and to contribute, through Ecoembes (Green Point), to the collection and treatment of packaging that consumers provide through their daily recycling.

Responsible manufacturing

We manufacture Petuxe with the highest possible quality certification, along with environmental and social policies. In European facilities that hold ISO (International Standards) certification:

- GMP: Good Manufacturing Practices ISO 22716
- Quality Management and Commitment ISO 9001
- Environmental Management and Commitment ISO 14001

Protect clean water

We are responsible for the water we use to develop all our vegan cosmetics. Our manufacturers have the highest environmental certification and do not discharge unclean water.

Natural ingredients

We believe that the earth is the best source of ingredients, which is why we develop cosmetics based on natural ingredients, many of which are organically grown. Because we love animals so much, we only develop cosmetics that contain ingredients of mineral and plant origin.

*Who
we are*

PETUXE is a 100% vegan professional cosmetics brand, designed and manufactured by cosmetics experts and a leader in the development of vegan cosmetics for pets.

Our catalog includes shampoos, masks, conditioners, and other products tailored to each coat type and the needs of our furry friends' hair and skin, with pH adjusted to their needs. **We prioritize the effectiveness and efficiency of the hygiene and styling process, using locally sourced organic olive oil, organic aloe vera, and vitamins, extracts, and purified water in our products.**

We care for and treat pets with the highest quality standards, never inferior to those we use on ourselves, humans. At the same time, we are concerned about the sustainability of our planet by developing sustainable products.

Our formulation and manufacturing are regulated and certified with good manufacturing practices, such as ISO 9001, which guarantees strict quality control throughout the entire process. The ISO 14001 standard also helps us identify and manage associated environmental risks.
